

Rolbal Etiket

Aan die einde van die kop is daar dikwels baie raadgevers oor watter balle in tel is of nie. Dit is steurend en beslis nie goeie rolbal etiket nie. Laat maar hierdie ou takie in die hande van die derdes.

Dit is dan ook 'n goeie gebruik dat die derde van die span wat die punte gekry het, die witte optel en aan sy/haar lei oorhandig. Dit laat dan geen twyfel dat die telling bepaal is en die balle maar geskuif kan word nie. **Kom ons vestig hierdie gewoonte in ons klub asseblief deur ook tydens sosiale spel dit na te volg.** Lekker speel.

SOME IMPORTANT BITS OF ETIQUETTE

(John Ralph)

Seconds should never make up their mind as to what shot they are going to play. The second should wait for the skip's instructions, before stepping onto the mat, then to obey them implicitly without suggesting an alternative shot.

As **spectator**, try not to move on the bank from one rink to the other when a player delivers to this side. Wait until after the bowl is delivered and respect the bowler on the mat for his focus and concentration on the aiming point which is in your direction.

Remember, when your bowl stops the mat belongs to the opposition, your skip should now no longer talk to you.
